Definition of Terms

Portfolio: A collection of work to reflect your learning experiences and display your application of knowledge through completing the course work for a Registry Credential. This is packaged in a 3-ring binder or e-Portfolio program to complete the requirements for commission.

Rationale: The explanation and/or demonstration of how you applied and used the knowledge and skills you learned from the credential courses to fulfill a portfolio requirement. Consider this the 'story of your journey' and reflect on your application of knowledge through the completion of specific work samples.

Work Samples: Supporting documentation

Reasons for Creating a Portfolio

Your portfolio is a creative, living document that will include a variety of materials to reflect your learning journey. A portfolio gives you the opportunity to:

- Present a comprehensive collection of your work to demonstrate your ability to integrate and apply the knowledge and skills taught in the credential into best practice.
- Use self-reflective skills to advance and plan for future professional development.
- Validate your competency within the field as a professional.

Although each portfolio will be unique, there are specific requirements that must be met to complete a Registry Credential. Your portfolio is a compilation of your best work from the following four credential courses:

Course 1: Infant Toddler Development
Course 2: Group Care for Infants and Toddlers
Course 3: Family and Community Relations
Course 4: Infant Toddler Capstone Course

Course 1-3 may be taken in any order, but the Capstone Course must be taken last.

Your portfolio will be presented to a Registry Commissioner who will determine if you have met all requirements for the credential. This guide will provide you with the information you need to successfully put your portfolio together.

Overall Composition and Required Sequence of Your Portfolio

It is highly recommended that the portfolio be completed electronically, however you may elect to create a type written document presented in a three-ring binder format.

- Be sure you have all original documents saved on a secure drive (flash drive, etc.) before mailing your portfolio to the Commissioner.
- If you are submitting videos, post them privately to YouTube for Commissioner viewing. Guidelines and information for submitting videos are included in this guide under the content area *Teaching Practices*. **Do not send videos on a flash drive or any other kind of device; they will not be viewed.**
- Clearly label your portfolio and any pieces of your project with your name. Be sure any items that are part of your project can be easily identified.

When creating an electronic portfolio, check with your Capstone instructor for the e-Portfolio program used by the college. Examples of e-Portfolio sites include:

- Blogger (https://www.blogger.com/about/?r=1-null_user)
- LiveBinders (http://www.livebinders.com)
- Google Sites (https://sites.google.com/site/eportfolioapps/)
- Weebly (https://www.weebly.com/)

As a precaution, back up ALL your documents onto a secure drive (flash drive, etc). The electronic portfolio will be organized much as you would a three-ring binder. You will create and use tabs just as you would use tabs in a binder to set up and organize materials into categories. While certain content is required, individuals have a great deal of flexibility and creativity in making portfolios attractive, but the content of what you choose to include is more important as it demonstrates the range and depth of your knowledge and skills. Written work must be clearly written, grammatically correct and contain minimal spelling errors.

Before you send your e-Portfolio, don't forget to check the privacy settings on the e-Portfolio program to be sure the Commissioner will have access. When emailing your e-Portfolio link to the Commissioner, be sure to include any permissions and/or passwords needed to view the portfolio. **Remember e-Portfolio programs are public sites, so you should not include YouTube video links, sensitive personal information, or financial documents within your e-Portfolio for confidentiality reasons.** Instead, send any confidential documents in a separate email to the Commissioner and follow the directions for safe video sharing.

Your portfolio must be put together in the sequence indicated below.

- The candidate's name should be on the first page of the e-Portfolio or on the outside cover of the physical binder portfolio.
- Include a title page and table of contents.
- Label each section and use tabs for each section and category of an e-Portfolio or dividers/tabs between each section of a physical binder.
- Categories must be in the required sequence.
- Each category must include the required portfolio components noted in each content category.
- Strive to make your portfolio creative and attractive with written work that is clear, legible, descriptive, grammatically correct and without spelling errors.

Within this guide, you will find details on what is required for each portfolio entry. Review each portfolio category carefully. Be sure to use the **Preparing Your Portfolio: Companion Guide,** available on the [Credential Resource](#) page of The Registry website, for critical documents including self-assessments and other required forms.

Considerations for Portfolio Work Samples
- Work samples are the **"what"** of your portfolio.
- Work samples are of **your own work** related to infants and toddlers from birth through thirty-six months of age.
- Each work sample should represent knowledge you have gained from the credential courses.
- When using work from another source, such as a planning or observation form that you have filled in, be sure to cite it appropriately.
- Suggestions for possible work samples are in each category description.
- Choose a sample of your work that fits the category. This may be something you've developed previously, but it should reflect enhancements or revisions you've added because of your learning and growth throughout the credential courses.
- If the work sample is a form or letter or another document you created, you may wish to also include a description of the process you went through in developing the document.
    - Tell what the need was that brought you to create the form/letter.
    - Describe the decisions made in its development, who you worked with, what choices were considered and why the choices were made.
    - You might also describe the impact or effect of the form or letter. Was it successful? When using it, does it achieve the desired results? How do you know?
    - In the description, explain the sample in detail to a reader who has never seen it before. Give a description that offers a better understanding of the item than just by looking at the sample alone.
- It is the student's responsibility to provide media samples in a format that is easily accessible to both your instructor and Registry Commissioner.

Rationales for Portfolio Work Samples
- Each rationale is the **"how"** and **"why"** of the work sample.
- Each work sample must be accompanied by a written rationale that answers the questions required in the portfolio guide.
- A suggested rationale is included in each category.
- Your rationale must:

1. Be no more than one page. If you have written more than one page, consider putting some of the information in the description which is part of the sample.
2. Be concise or as brief as possible when answering the statements in the sample rationale. If you choose not to use the sample rationale template, be sure to address the guided statements in your own words.
3. Rationales must be typed in 12 pt. font, 1.5-line spacing, with one-inch margins.

- Include the **Verification of Video/Photo Permission Form** that states that you have signed permission to use the child's photo, video or observation records.
- Obtain written permission signed by child's parent or guardian using the **Video & Photo Release Consent Form—Parent/Guardian**. Do not include the consent forms in the portfolio, but you must share them privately with the Commissioner by email or have them available to show the Commissioner at the Commission.

The Registry Credential Commissioners

Registry Commissioners are early care and education professionals who have been trained to objectively evaluate your portfolio/project using the assessment tool designed for each specific credential. Each Registry Commissioner has completed at least one of The Registry Credentials, presented a project or portfolio, and successfully completed the commission process.

The Commission Process

Your portfolio/project must be received by the Registry Commissioner **at least ten (10) days prior** to the date of the commission for review. Please review the portfolio/project assessment form available on the [Credential Resource](#) page of The Registry website to ensure you have included all required components. If you have visuals, such as display/picture boards, samples, blueprints, or scale models do not submit them with the written portion of your project. You may share these with the Commissioner at the commission.

There are two parts to the Commission.

1. **Presentation of your Learning Story:** Your classmates and other credential candidates will be present during your presentation. The time frame for individual presentations is at the discretion of the commission host and based on the commission group size. In approximately 5-10 minutes address the following questions within your presentation.
   - How has the Infant Toddler Credential changed you as a provider?
   - What does completing this credential mean to you?
   - What are you passionate about as it relates to infant toddler care?
   - How will you contribute to quality infant toddler care in the future?
2. **Individual Meeting with the Commissioner:** You will meet with the Registry Commissioner to complete the commission process. This is an opportunity for the Commissioner to ask you any questions s/he may have about your portfolio/project. The Commissioner will give you feedback and comments about your portfolio/project. You will be informed if you have successfully completed the commission during your individual meeting with the Commissioner. If your commission portfolio/project is incomplete, the Commissioner will advise you on what you will need to do to complete the portfolio/project. If you are asked to submit additional materials, you will submit them directly to the Commissioner by the deadline provided by the Commissioner. In the event the additional materials are not submitted as requested by the deadline, you will not pass the commission.

Awarding the Credential

You will receive your Credential Certificate when you have done the following:

- Received a Registry Career Level Certificate or submitted a complete application for membership. If your first-time application is put on "Incomplete" status, you will not receive your Credential Certificate until the necessary fee or information is received and the "Incomplete" status is resolved.
- Successfully completed the commission process.
- **Submitted Credential Course Documentation**: Please note that your credential **will not** be verified until The Registry receives an official transcript showing successful completion of all six credential courses. Official transcripts must be sent directly to The Registry in an unopened, originally sealed envelope or by secure email from the institution of higher education. Photocopies of official transcripts, grade reports, or unofficial transcripts are not accepted. You must receive a C- or better in each course to be eligible for the credential.

Appeal Process

You may send a letter to The Registry if you do not agree with the results of your commission. The letter will be reviewed by the Executive Director or designated qualified staff. You will receive a letter indicating The Registry's decision within 30 days of the receipt of your letter. If your concern has not been resolved to your satisfaction, you may request that The Board of Directors review your project and your letter of appeal. The Board of Directors will review your appeal at the next regularly scheduled meeting. The Registry Board meets four times per year and the board meeting schedule is available on The Registry website.
